Opening Roofs &  
Succah Applications

Clerestory  
Lanterns & Orangeries

Rooflights, Skylights,  
Lanterns & Pyramids

The "Perspective"  
Glazed Roof System

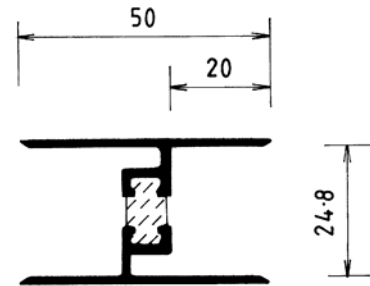

## "Perspective" SOLUTIONS

A series of profiles introducing simple efficiency to the installation of both polycarbonate and sealed unit glazing :

### FOR 24MM SEALED UNITS

#### RB 216 GLASS CONNECTOR (24MM)

A rigid and neat aluminium profile with full thermal break, allows for units to be connected during glazing where longer lengths are in use.

#### RB 217 GLASS STEP / DRIP (24MM)

The rigid step protrusion avoids the need for costly and difficult to handle stepped edged units, spreading the weight across the entire front edge, whilst also protecting the spacer and sealant from damaging UV light.
