

“Engineered Products for Living Daylight”

PRODUCT RANGE
Various bespoke formats are available to suit your specific requirements, with the first design decision being whether the roof is to move completely away from the aperture, or to incorporate the opening facility within a permanent boundary, with various design solutions clearly pictured on our website .
CONSTRUCTION
<ul style="list-style-type: none">• Structural, powder coated aluminium, with thermal de-coupling and isolation for thermal integrity.• Toughened, Low 'e', argon filled sealed unit glazing to meet building control requirements.• Weather seals and gaskets to suit exposed conditions.• Choice - <i>for some designs</i> - of manual or electrical operation, with 'dual options' for Succot applications.• Each unit is bespoke built to suit site requirements.
OPENING OPERATION OPTIONS
<ul style="list-style-type: none">• Manual - <i>i.e.</i> direct hand or pole operation.• 230 volt - with pole operated override.• 24 volt - with options for battery back up, rain sensor, external keypad and etc. <div style="border: 1px solid black; padding: 5px; margin-top: 10px;"><p><i>Consideration of security implications is recommended before considering 'automatic' functions for an opening roof</i></p></div>
APPEARANCE
<ul style="list-style-type: none">• “Traditional” or “Contemporary” Designs.• ‘Ovolo’ style, or plain profile options are available for most designs.• White or any standard RAL colour can be provided.• Dual colour is an option on most designs.
